PROFESSIONAL SUMMARY

Results-driven Computer Science student with hands-on experience in full-stack web development using the MERN stack, REST API design, and scalable application architecture. Seeking a Full-Stack Developer role to build impactful products, with strong problem-solving skills and a track record of delivering clean, maintainable code.

EDUCATION

JECRC University, Jaipur

Bachelor of Technology, Computer Science Engineering

2022 – Present

WORK EXPERIENCE

Garage Productions Pvt. Ltd.

AI Trainee

Feb 2026 – Present

- Assisted in building and deploying AI-powered features, contributing to smarter and more automated system behavior.
- Developed and tested intelligent workflow automation pipelines, cutting manual intervention in repetitive processes by 40%.
- Collaborated with the engineering team on AI model integration, system architecture, and production deployment.

EduBooks Pvt. Ltd.

Web Developer Intern

Mar 2024 – Mar 2025

- Created reusable UI components in React.js, reducing code duplication by 30% and improving development speed across the application.
- Developed and integrated REST APIs with Node.js and Express, enabling reliable data flow between frontend and backend services.
- Leveraged Prisma ORM with PostgreSQL to streamline database queries, improving maintainability and cutting query complexity significantly.

PROJECTS

Case Cat – Custom Mobile Cover E-Commerce Platform

- Engineered a full-stack e-commerce platform using Next.js, Prisma ORM, and Kinde OAuth with Role-Based Access Control (RBAC) and REST APIs.
- Crafted a responsive UI with Tailwind CSS and Radix UI; integrated real-time data sync, file uploads, and automated email notifications.

SketchRace – Real-Time Multiplayer Drawing and Guessing Game

- Developed a real-time multiplayer game with Socket.IO for live synchronization, dynamic turn rotation, and speed-based scoring across all players.
- Implemented the interactive drawing interface using the Canvas API with Next.js 15, React 19, TypeScript, and Tailwind CSS.

MERN Job Portal – Full-Stack Recruitment Platform

- Built a full-stack job portal using MongoDB, Express.js, React.js, and Node.js with JWT authentication and Role-Based Access Control (RBAC).
- Architected REST APIs to enable seamless job posting, application tracking, and user management across recruiter and candidate workflows.

TECHNICAL SKILLS

Languages Java, JavaScript, TypeScript, C++, Python

Frontend React.js, Next.js, HTML5, CSS3, Tailwind CSS, Radix UI

Backend Node.js, Express.js, REST API Design

Databases MongoDB, MySQL, Prisma ORM

Tools Git, GitHub, Vercel, Postman, VS Code

ACHIEVEMENTS

- Top 10 Finalist – Smart India Hackathon (national-level competition)
- Top 10 Finalist – Ideathon Competition
- Completed Data Structures and Algorithms in Java certification
- Summer Analytics 2024 – Consulting and Analytics Club, IIT Guwahati
